

LINE AND STAFF RELATIONS

The School Committee expects the Superintendent to establish clear understandings on the part of all personnel of the working relationships in the school system.

Personnel will be expected to refer matters requiring administrative action to the administrator to whom they are responsible. The administrator will refer such matters to the next higher administrative authority when necessary.

It is expected that the established lines of authority will serve most purposes. But all personnel will have the right to appeal any decision made by an administrative officer through established grievance procedures.

Additionally, lines of authority do not restrict in any way a two-way flow of ideas and the cooperative, sensible working together of all staff members at all levels to improve the program and operations of the school system.
