RENOVATIONS

Any significant and permanent structural changes contemplated in any school facility must first be brought before the School Committee. The School Committee will make the final determination as to what is or is not to be changed. It is, however, recognized that the Superintendent will be empowered to improve school facilities with allowable resources, including directing improvements to existing offices, storage facilities, classrooms and/or common areas.

Adopted By The
Hadley School Committee: April 24, 2014
