## **POLICY ON DRUG & ALCOHOL SURVEYS**

To the extent that it becomes necessary to survey students with respect to their experience and/or use of drugs and/or alcohol, said survey forms will be subject to School Committee review and approval. It is, however, understood that the administration of the district's secondary school, Hopkins Academy, is empowered to administer an annual health risk survey developed by state officials on an annual basis in order to qualify for specific grant funding.

Adopted By The  
Hadley School Committee: July 21, 2014
