

## **WATER TESTING PROCEDURES HADLEY PUBLIC SCHOOLS**

Hadley Public Schools (HPS) is committed to the health, safety, and well-being of faculty, students, and staff. As part of this commitment, HPS regularly tests drinking water at Hopkins Academy and Hadley Elementary Schools. Procedures for water testing are as follows:

- HPS shall conduct comprehensive drinking water sampling at Hadley Elementary and Hopkins Academy triennially. HPS shall use certified technicians to conduct drinking water sampling. Reports shall be available to the public and maintained in the District Office.
- Hadley Water Department shall conduct lead and copper rule (LCR) sampling triennially in accordance with MassDEP guidelines. Copies of the LCR reports shall be maintained with comprehensive drinking water sampling reports in the District Office.
